POWER TO YOUR POCKET, NOT YOUR ENERGY COMPANY

With solar panels on every roof in the UK we'd all have enough clean, free energy to power everything we do.

That's why at Naked our team are 100% independent, take no commission, and help you find the best route towards energy independence.

Because we want you to share our passion. The revolution starts at home.

POWER YOUR
HOME WITH
THE UK'S BEST
SOLAR PANEL
INSTALLER

Live more sustainably with solar & storage from Naked. It's easy when you know the whole truth about what's on offer. We give you honest predictions on returns from solar manufacturers, and only install the system that works best for you.

Renewable energy protects all our futures. It puts power in your hands and slashes CO₂ emissions. Rapid advances in panel and battery technology in the past few years mean solar is now better value, longer lasting and more efficient than ever. It's running homes, cars and businesses across the UK, giving people control over their energy supply for the first time.

At Naked, we discuss your needs and priorities, compare all systems, then offer you a range of options. We're only comfortable installing solar once we're certain you have all the information you need to **make an informed choice.**

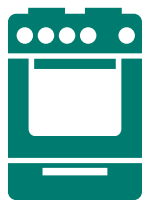

Watt POWERS WHAT?

Solar PV energizes your whole home & helps you lead a cleaner, greener life. A standard 10-15 panel 4kWp installation produces around 4000 units per year, easily enough to...

Light up every room
in your house

Power your cooker,
TVs & fridges etc

Save a massive 2.4
tonnes of CO₂e

10 REASONS TO GO NAKED

- 1. Expert installation.** We're NICEIC accredited & go above & beyond MCS quality standards & the Renewable Energy Consumer Code.
- 2. Guaranteed work.** Our installers are full-time employees. They're reliable, courteous & tidy. All labour comes with a 10-year warranty.
- 3. Unique service.** Unlike other companies, we design quality custom systems in house, using advanced [PV Sol software](#).
- 4. Accurate forecasts.** Informed choice relies on good information. We show clearly how much energy you'll generate & what savings to expect.
- 5. Real choice.** We're independent & take no commission, so you can compare & combine systems to source the best set-up for your home.

10 REASONS CONTINUED...

6. Fast surveys. Home visits take around 1 ½ hours. You'll get a personalised forecast with a range of options within 2 working days.

7. Regular contact. Throughout the process, you're kept in the loop about options, prices and timings. No nasty surprises, no waiting around.

8. Award-winning. We believe passionately in solar & want you to feel the same way. Our honest approach has won multiple awards.

9. After care. Problems are few, but if you need help, we'll sort it.. We treat people the way we'd like to be treated.

10. Lifelong advice. Get the most from your solar for years to come. Visit our owner's area for latest developments or call us.

FUELLING THE FOREVER HOME

Why they came to us

Dan has a young family and has built his 'forever' home to bring them up in. Thinking of their future and wanting to reduce ongoing running costs, Dan was recommended to Naked Solar by his father in law who had used us for two of his own installations.

How we helped

The family had complex energy usage patterns. We analysed them in depth then provided Dan with very accurate forecasts to help him understand the impact of the choices he was selecting from. Dan opted for a Solar PV and storage set up which immediately slashed his bills and reduced his CO₂e.

THE POWER & THE PAYBACK

Energy generated each year:	5586 kWh
Return on investment:	11.71%
Payback period:	9.1 years
Annual CO ₂ e reduction:	3.35 tonnes

“

I'm not technical so it was refreshing to talk to Naked as they explained everything. They were persistent and patient. It felt like they weren't going to let me have it until they knew I'd understood everything.

The guys were amazing, all done in a day and a half including the battery. It's so nice being able to look at my phone app knowing I'm keeping my money in my pocket. **EDF don't like me anymore.'**

Dan S, Truro
